Estate Sale Guidelines

A one time indoor estate sale is permitted for residents who have their house listed for sale. No items may be displayed outside of the home. The estate sale shall be held no more than two consecutive days. Parking for attendees is only permitted on the side of the street of the house having the estate sale. It is the responsibility of the unit owner or Estate Manager to oversee parking restrictions. The board of directors must be notified of the sale two weeks in advance so that the community may be notified.

I have read the guidelines for Estate Sales and agree to adhere to all rules as written:

Unit Owner's Signature
