

Robinson Pond Hudson NH

Quick Facts

Distance: 3.3 miles (~7 mins)
Convenience: Excellent
Restrictions: None
Parking: Very Good
Ease of Launch: Excellent
Wind Factor: Fairly Easy In Stronger Winds
Nature: Very Good—Go right from launch
Est. Time: Allow 1—2 hours
Crowds: Fairly Busy on weekends
Other Interests: 1 mile walking trail in Robinson Park

Observations:

Robinson Pond is a short drive and very enjoyable paddle. The launch area is level with plenty of parking. This pond is generally calm and stronger wind conditions still make it fairly easy to navigate. Once you depart the launch area, you can go to the right around the corner and paddle through a very shallow area of wetlands. Not sure if this area dries up too much in summer months so please proceed with caution. We saw turtles, herons, geese, and ducks while there in mid-April. Continuing to paddle to the left along the western shoreline has a few camps but not too over developed. If you are looking for an convenient paddle close to home, you can't do much better than Robinson Pond!
