Re: Request to fill available Board seat.

Date: February 17, 2019

Thank you very much for the opportunity to enter my name as candidate for the available Board seat.

My husband and I are very happy to be a part of the HW community. We enjoy the friendship and social connection that community living can afford. We have also learned that there are a number of challenges to community living and that creating and maintaining a harmonious community requires care and attention. How those challenges are met is something that I've decided I'd like to be part of.

How can I contribute? My professional background is Social Work. Much of my clinical work has involved, to put it very simply, helping people communicate and solve problems. My social work positions have also included a significant amount of management skills. I have been a supervisor, Regional Manager and Director of Clinical Services of a multi-state child welfare agency. This work required a great deal of collaboration with colleagues as well as working within both Domestic and International regulations and Laws.

I would like to work with the HW Board of Directors to increase communication, and heighten a sense of belonging and participation for all. I will work with the Board in keeping the community fiscally sound, maintaining compliance with governing laws and working with our management company.

Respectfully Submitted,

Pat Hoopes
