

Ralph Armstrong
1 Black Forest Circle

Before retiring in January 2017 I had spent 20 plus years in computer product management both as a Director of Product Management and as a Vice President of Product Management.

In those roles I have developed and used a number of skills that I believe make me a good candidate for the board of directors. I have authored and / or reviewed documents of all types ranging from product data sheets, product requirement documents, letters, contracts, product user information, and more. I have developed and / or reviewed product plans and delivery schedules, development and marketing budgets, and product pricing proposals. I have developed and given 100s of presentations to management, customers, vendors, and / or business partners. And I have negotiated and managed contracts and relationships with customers, resellers, vendors, and business partners that were successful for all parties involved over many years.

Janet and I have lived in Hickory Woods since October 2014. It is hard to believe it has been more than 4 years already! We both very much enjoy living here. As a board member I will do my best to make sure our community is properly maintained and provides a safe environment for us all to live in.
